I like retro stuff and it's a perfect bill. The strap is comfortable and look the face of the perfect size. I've had a lot of comments about it whenever I wear it. If you love retro too, this watch is for you! 3 out of 4 people found this review useful Was this review helpful to you? Yes No quality vintage looking watches you can wear with everyday clothes or it doesn't look out of place to wear Sunday better! Love it! Was this review helpful to you? Yes No lovely little vintage style dress watches. I suggest putting it on a 20mm dark brown or black leather strap for the ultimate look. It reminds me of East Bambino. The dome-shaped crystal must be visible in the flesh to be fully appreciated. If only the prosecutor had decorated the case beautiful engraving, or perhaps made it a handmade mechanical wound, would have been absolutely perfect. Love it! Thank you thank you 4 out of 7 people found this review helpful Was this review helpful to you? Yes No, I was looking for a cheap dress watch and came across it at 30 pounds. It looks great and has a vintage presence. Its a big size too. The only problem I had was.... not a fan. I changed it to the skin to see the rice and it looks perfect. More expensive than even RRP. Very recommended! Im a watch collector. 4 out of 6 people found this review useful Was this review helpful to you? The watch, with its lovely exterior and burgundy colored interior box emblazoned with the stylish Accurist logo, came very well protected. The undeniable vintage/retro charm of this dapper watch is sure to get lots of looks and looks. Bombay-style dial with domed glass and smart look NATO match strap made in heaven. What I did to equip it with a brown perlon strap that further highlighted its charismatic retro look. This is really one wonderful looking clock! The value for money you get when you buy this beauty is huge and I'm sure you won't regret this decision. This is the second Accurist watch I received from the Watch Shop - the first was also from accurist well known the first vintage series - the gold/black model is the MS433B, and I'm more than happy with both of these wonderful watches. I could say that you will be impressed by the fact that this watch can transform from a casual watch to a true statement fashion dress in just a second - all you have to do is change your strap and you have a brand new watch with a brand new wrist presence. I highly recommend trying at least one watch from this first Vintage Special Edition because they really are quality watches that won't keep you up. It looks good quality and the strap is different, which makes a difference! 4 out of 6 people found this review useful Was this review helpful to you? Yes No After searching for a stylish and simple watch for quite some time, I came across this and I knew I found it. These watches look much better in person! I was afraid it would look silly with bubble-shaped glass, but it actually complements the whole style. I replaced the NATO belts with brown leather, which greatly improved it! 7 out of 10 people found this review useful Was this review helpful to you? Yes, no hours of service didn't come when they said it would be and it looks fantastic. Love the retro strap and big bubble glass face! This will be my holiday look next week in sunny Spain. 4 out of 5 people found this it Is this review useful for you?
